LKH T/E-18	18W	1200	10000	82	GX24q-2	50	116	
LKH T/E-26	26W	1800	10000	82	GX24q-3	50	131	
Self Ballasted Electronic Lamps								
LKH BL-11	11W	600	10000	82	E27/E26/B22	50	142	
LKH BL-15	15W	900	10000	82	E27/E26/B22	50	167	
LKH BL/T-15	15W	900	10000	82	E27/E26/B22	50	145	
LKH BL/T-20	20W	1200	10000	82	E27/E26/B22	50	152	
LKH BL/T-23	23W	1500	10000	82	E27/E26/B22	50	172	

Long Life Tri-Phosphor T8 Fluorescent Lamps

LKH FL	18W	1400	15000	86	G13	25	600
LKH FL	30W	2700	15000	86	G13	25	914
LKH FL	36W	3750	15000	86	G13	25	1200
LKH FL	58W	5300	15000	86	G13	25	1500
LKH FL	32W	3350	30000	86	G13	25	1200

- T8 Lamps are available with High Frequency and Rapid Start
- T8 Lamps can be made available in 3000°K, 4100°K, 5000°K and 6500°K

These high quality Energy Saving lamps are manufactured in our factory located in Kuantan, Malaysia using the latest manufacturing technology with fully automated production lines.

Our lamps are of high efficacy and long life span as we use high quality raw materials sourced from acknowledged world leaders in the lighting industry.

- Save 80% energy
- Last 10 times longer
- Reduce maintenance cost
- Available in Warm White, Cool White and Daylight

Ideal for all application including homes, office, commercial, indoor and outdoor.

Energy Saving Features

Features that give light, longer life.....

1. Welded connections for good electric contacts.
2. The filament of the cathode consists of a triple coil for maximum adherence to a high quality emitter coating. This reduces end blackening and enhances the life span of the lamp.
3. The filament is further protected by a ring shield.
4. A carefully controlled filling of pure Krypton and Argon gas mixture ensures positive starting, high light output (lumens) and energy saving.
5. The coating consists of carefully selected grain-size phosphors evenly distributed to give a more efficient and consistent light output throughout the life span of the lamp.
6. A measured dose of high-purity mercury to last for full lamp life.
7. Strong clean and corrosion resistant metal cap.
